

THE **POD** IN A **POUCH**

AIR FRESHENER

A super concentrated fragrance that removes unpleasant odours from air spaces. The product is biodegradable and safe for use on normal materials of construction.

DIRECTIONS FOR USE

Spray the air freshener into the air, pointing away from pets and other persons. To increase the persistence of the fresh perfume, lightly use on carpets, curtains and soft furnishings. A spot test is recommended before use.

Note: Do not apply directly to hard floors as this will create a slippery surface.

PREPARATION

- 1 Place one sachet into the trigger bottle.
- 2 Fill bottle half way with warm water and attach trigger head
- 3 Shake vigorously to dissolve the sachet
- 4 Top up the bottle the rest of the way with cold water, and it's ready to use.
